Lynnwood, WA 98087

Dear Jeremy,

Washington Patriot Construction (WA Patriot) would like to recognize DECO's contributions on the Boeing 3-800 Cafeteria Refresh project.

The Boeing 3-800 Café Remodel included a full demolition, renovation and upgrades of the existing kitchen, servery and dining areas in two separate phases with a duration of less than six months. The phased construction allowed Boeing employees access to a Temporary Food Services while the remainder of the Café was under construction. Despite time and space constraints, your team helped in a successful project completion.

Please accept our appreciation and recognition of your team's contribution to the success of this project.

We would like to specifically thank you for your foreman in the field, Jerry Drake. He, as well as your field electricians, proved to be knowledgeable, cooperative, and dedicated. Your team pulled through to get the job done and the WA Patriot team is appreciative. We are grateful for the working relationship that has been built between WA Patriot and DECO on this project.

Congratulations on a job well done! As a team, we were able to successfully complete this project and provide Boeing with a beautiful and functional new Cafeteria.

Sincerely,

Mac Stanton
